

Poster Session

Members of the Learning Community (States and Countries) are invited to develop posters that highlight **what is new or unique in their state and countries**. There will be a poster session on the first day of the meeting so that all can network and learn from each other. Unfortunately, we do not have enough room at the venue to accommodate posters from programs at this time.

- The first 25 posters submitted will be accepted. (Space for displaying posters is limited.)
- Posters will be 24" x 36".
- Posters should be vertically orientated.
- Posters will be printed in color.
- Poster designs should be submitted in pdf or jpeg format (pdf is preferred).
- **The posters must be submitted by March 29th**. All poster designs will be sent to the printer on April 1st.
- The posters will be backed with foam board and placed on easels.
- States and countries should designate someone to stand with the poster to answer questions during the poster session (one hour).
